

MANY WAYS TO DRAW THE SUN LINES AND SHAPES

There are many ways to create an image of the sun by using lines and shapes. Drawing rays pointing away from the centre of the sun is the basic idea, but there are many ways to do so. Let's explore different exciting ways to draw the sun!

Maker Materials

You will need

- Small pieces of paper – or you can use your sketchbook
- Thin pen or pencils, coloured markers
- A coin or small object that is a circle

Let's get started

- Put your coin down onto the page. This will help you draw the centre of your sun!
- You can trace around the coin to get a perfectly round circle if you wish
- Building off your circle, experiment and play with different types of lines using one colour to create your own sun shape!
- Use the image below for inspiration, or come up with fun suns that are all your own!
