FRIDAY, AUGUST 7 – AUGUST 28, 6-9PM

## COURSE SYLLABUS

### **Class 1: Unlearning Drawing**

Students will explore line, value, and form through experimental drawing exercises using pencil, charcoal, and ink. The focus will be on loosening habits, breaking conventions, and approaching drawing as process rather than product.

### **Class 2: Painting is Dead**

An introduction to colour theory and composition through acrylic painting. Students will create a diptych that explores contrast, dialogue, and the layered history of painting as both a medium and a provocation.

### **Class 3: Printmaking: Lino Block**

Students will learn the fundamentals of relief printmaking by carving a lino block. This session emphasizes the use of positive and negative space, as well as the power of pattern and repetition in building visual rhythm.

### **Class 4: Sculpture: Invisible Bodies**

Using plaster bandage, students will create abstract forms inspired by Henry Moore's work. The class will emphasize both technical approaches to plaster and conceptual exploration of volume, void, and organic shape.
